

# Do You Sell A Non-Timber Forest Product?

---

- **The PEI Model Forest Network and the Forests, Fish and Wildlife Division are updating the PEI portion of the 2009-2010 edition of the From Our Atlantic Woods, a directory aimed at highlighting businesses that sell non-timber forest products (NFTPs).**
- **The forest is more than just trees and NTFPs are products that come from the forest environment and provide income for individuals in a sustainable manner.**
- **There are a wide range of products and services that fall into this category, from Maple syrup and forest berry jams to twig furniture and forest eco-tourism, i.e. bird watching.**
- **If you feel your business may fall into this category, there could be the possibility of free publicity with a listing in the directory.**
- **For more examples of NTFPs, You can view the web based form of the directory at [www.fromouratlanticwoods.com](http://www.fromouratlanticwoods.com).**
- **For more information on the directory you can contact Greg Ridgway at [gregmodelforest@gmail.com](mailto:gregmodelforest@gmail.com) or call 902-368-6653.**
